*Biodegradable Mask from  
Natural Plant Materials*

*We offer you the same protection and a different future to our Earth*

Mask has become our daily necessity since the outbreak of pandemic. According to the report from Journal of Environmental Science and Technology, the monthly global consumption of disposal masks reached the alarming figure of 129 billion and become a potential threat to the environment.

疫情期間，大家紛紛帶起口罩，歇力抵擋病毒，根據《環境科學與技術》雜誌（Journal of Environmental Science and Technology）報告指出，全球每月使用的一次性口罩高達1290億個，為大自然帶來沉重負擔。

## Product Features 產品特點

Composed of PLA material, which originated from starches of crops like corn, wheat and cassava  
口罩本體取材自PLA 物料（從粟米、小麥、木薯等植物澱粉提煉及加工而成）

PLA material will be decomposed into CO<sub>2</sub> and H<sub>2</sub>O which will re-emerge into the nature under specific environment  
PLA物料在特定環境下會自然降解為二氧化碳和水分，完全回歸大自然

BFE,VFE, PFE >99%, possesses identical protective power as surgical mask  
BFE,VFE, PFE >99%，保護性與外科口罩無異

Made in Hong Kong  
香港製造

## Packaging Information 包裝資料

Packaging: 20 pcs/box , all individually-packed  
包裝: 每盒20個，每個獨立包裝

Mask Size: 175 x 95 mm  
口罩尺寸: 175 x 95 mm

Made in Hong Kong  
香港製作
